## BOOK SYNOPSIS

NEW YORK TIMES BESTSELLER DEALING WITH CHINA takes the reader behind closed doors to witness the creation and evolution and future of Chinas state-controlled capitalism. Hank Paulson has dealt with China unlike any other foreigner. As head of Goldman Sachs, Paulson had a pivotal role in opening up China to private enterprise. Then, as Treasury secretary, he created the Strategic Economic Dialogue with what is now the worlds second-largest economy. He negotiated with China on needed economic reforms, while safeguarding the teetering U.S. financial system. Over his career, Paulson has worked with scores of top Chinese leaders, including Xi Jinping, Chinas most powerful man in decades. In DEALING WITH CHINA, Paulson draws on his unprecedented access to modern Chinas political and business elite, including its three most recent heads of state, to answer several key questions: How did China become an economic superpower so quickly? How does business really get done there? What are the best ways for Western business and political leaders to work with, compete with, and benefit from China? How can the U.S. negotiate with and influence China given its authoritarian rule, its massive environmental concerns, and its huge populations unrelenting demands for economic growth and security? Written in the same anecdote-rich, page-turning style as Paulsons bestselling memoir, *On the Brink*, DEALING WITH CHINA is certain to become the classic and definitive examination of how to engage Chinas leaders as they build their economic superpower.
