## **BOOK SYNOPSIS**

Google Play Family Library is a feature that allows up to 6 family members to share access to purchased Google Play content. On Google Play Books, when one user buys a book, other members in the family group can read that book on their own devices, using their own Google accounts. In the countries where Family Library is available, all members who comprise a family group must reside in the same country. A family manager, who must be 18 years or older, is responsible for adding or removing family group members. Each member can only be part of one family group at a time, and can only switch family groups once per year. If you have additional questions, please read more about Google Play Family Library.
